

TOSTOCK POORS ESTATE

We are pleased to report that all the Allotment plots are let and we currently have a real thriving community down there.

The Norton Road meadow has been cleared and the ditch dug out along the roadside. This has helped ease the problem of standing water adjacent to the meadow. This work was very kindly undertaken by Tom & Kate Stocking.

The Trustees were able to issue Christmas Grants to 5 residents.

As a side note :

The erection of an electric wire fence was put up by the adjacent landowner and the end of the allotment hedge was also cut down by them. We had no prior knowledge of any of these activities and have had to react quickly to make the area safe. This has been reported to and inspected by highways and we are awaiting further information at this time.
